

Dr. Frank's Age Related ADHD Assessment Inventory

Ages five through ten years

Patient _____ Date _____ Age Now ____ Age Onset ____
School _____

Dr. Frank developed this short inventory as an easy way for you to relate important aspects of your child's ADHD diagnosis and the effects of treatment. Please take a few minutes to fill it out and bring it with you to your next office visit or feel free to fax it to 864 489 6958. Thanks for helping us provide better care for your family!

Use these abbreviations to complete the form (Use more than one per question)
Y=Yes * N=No * S=Sometimes * M= Many times/week * D=Daily * A/P=AM/PM
Treatment Progress I=improved * W=worsened

Rate these ADHD Symptoms	how often occur Frequency	since treatment started Symptoms have
