

Teacher Student ADHD Treatment Progress Inventory
Frank Barnhill, M.D.

Student/patient _____ Date _____
School _____ Grade _____ Teacher _____

Dear Teacher,

I'm sure you're aware how valuable we consider your input regarding the above student's behavior and progress in the treatment of his or her ADHD. Teachers are usually the ones who initially detect most of the childhood behavior disorders and therefore are positioned to have the greatest positive impact on such a child's educational, emotional and social development.

I know your goal in teaching is to help each child reach his or her fullest potential in life. In order for us to reach that mutual goal, I will need your observational input to plan for appropriate interventional and medication treatments for this child.

Please complete this "Inventory Sheet" and either give it to the parents to return or mail it to me at 722 Hyatt Street in Gaffney, S.C. 29341. You may also fax it to us at 864 489 6958. Should you have questions or immediate concerns, please feel free to telephone me at 864-489-8168 or e-mail at drfrank@drhuggiebear.com .

Thanks,

Dr. Frank
